

# American Process MANAGEMENT

## FINANCIAL ANALYSIS

- APM's outputs are customizable to fit your needs
- Know how much you are spending by hour, day, and week
- Know your cost by crew, craft, and contractor
- Know your performance metrics by pairing cost and productivity data

Knowing how much you are spending is imperative to accurately forecasting how much you are going to spend.

## FINANCIAL ACCRUALS

- Effective cost management begins with accruals
- Accruals ensure costs are accurately captured for the correct period of time
- Accurate accruals make invoice timing irrelevant to providing dependable data
- Accruals are the keystone to reliable financial metrics

APM Navigator prevents financial errors before they occur.

## INVOICE PROCESSING

- APM Navigator software enforces industry best practices
- Accurate billing and payments based on contract terms
- Timely processing to provide subcontractors with dependable cash flows

You can have the best tools in the industry,  
but without reliable data, you will not have reliable results.
